

# **FIRE UP VIDEO**

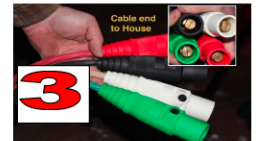

**100 ft cable we carry**

**Stage**

**Crowd**

**Cam  
Loc  
Male  
Ends On  
Our Cable**

**240 V` (220 and 208 have worked also)**

**100 amp**

**Single phase (2 - Hots, 1 - Neutral, 1 - Ground) VERY IMPORTANT**

**Cam loc male end to event power source (Event to supply female ends)**

**Also have a bare wire adapter we can hook to our cam locs to wire directly to a panel**

**Event electrician must hook in and out before and right after show**

**FireFly can draw up to 70 amp**

**DragonFly can draw up to 83 amp**

## **Typical Set Up For Shore Power**
