

# Load in Help Sheet: SuperFly

## Additional Load-In Space

\* This side toward crowd if possible - bottom banner only available when this side toward crowd

\*\* We may be able to place in this direction with under 40 ft depending on layout, but cannot guarantee this. If you have a skid loader or other similar equipment on site, that can be used to get in tighter

**Trailer 11,000 lbs**

**Trailer Length 25.5 ft**

**Trailer Width 8 ft** (13.5 w/ outriggers)

**Screen Rotation 360°**

**Screen Trim Top 23.5 ft**

**Screen Trim Bottom 10 ft**

**Banner Ready on 3 sides**

**Generator On Board**

**Shore Power Ready**

**Full Control Room**

**Pick Up Truck Towable 21 ft**

**Dish Tailgate Available**

**Sound System Available**

**Wind Load 35 MPH**

\* We also need approx 6 ft on each side of trailer, in the space above the trailer, to rotate the screen, and 2 ft behind the trailer, in the space above the trailer for the screen to overhang
